

Pick-Up Game Club

Overview

WHY PICK-UP SOCCER

The reason we started this soccer club was for families who wanted their kids to learn the pleasure and basics of soccer without soccer taking over their weeknights and weekends.

We teach soccer in such a way that kids develop skills as they play instead of through lots of drills.

These fun soccer sessions will cover ball handling games, playing basics and a weekly scrimmage. By learning first to love soccer we have experienced that kids want to develop stronger skills as they play.

Some players move on to a more intense league. That's great! Others stay to have fun playing this universal game. Both make us happy.

ONCE A WEEK

We all need less running around. Ages 5-11 at one place at one time for one hour a week. We have 2 games playing at the same time and separate kids by their age groups. so they can play with their peers.

Can you have a team sports experience and a family friendly schedule too? We think so.

PICK-UP SOCCER DIFFERENCES

You won't find coaches that stress out your kids at Pick-Up Soccer. Coaches embrace our laid back approach to soccer. They won't be yelling at them the whole time to do things. They facilitate a fun scrimmage. Their most important trait is liking kids.

We don't do drills. We play warm-up games that allow the kids to practice ball handling, keeping their heads up and ball control while having

fun. They don't realize how much they are learning.

We don't enforce all the soccer rules. We give enough to let them play the game and add a few additional rules along the way for the older kids.

Kids spend more time playing and less time standing around. They will learn from good plays and poor plays. Every child spends the whole hour on the field.

COACHES

Parents can make great coaches! We pay our coaches. If you love kids, we can teach you what you need to know through our video training to coach our simple soccer program. Contact your area coordinator for more info.

VOLUNTEERS

We always appreciate volunteers. We mostly just need help for assembling kids as a team, getting in starting positions and choosing a team name. Teens who are good with young children and follow instructions well could also assist with coaching, we give volunteer hour certificates.

You will also be asked to be at the first game 15 minutes early to talk with the head coach. Please read through the Volunteer Coaches Guide on our website before signing up.

ENCOURAGE FAMILY

The last night parents will be invited on the field to play with the kids. We tell them it's a

game they can play and practice with their family.

SUPPLIES

You'll need to provide

- tight lace up shoes
- a ball
- shin guards

Shin guards are important as a kick in the shins deflates a positive soccer experience.
